PROFILE

I'm an IT student with some foundational know-how in system administration and computer networking. I can support basic server and network infrastructure, in the simplest sense, while helping keep things secure. I'm eager to put my technical skills to work , learn newer technologies, and contribute toward more efficient and stable IT operations overall.

CAREER OBJECTIVE

To obtain a position where I can apply the knowledge and skills gained from my Information Technology course, contribute to organizational success, and continue developing professionally in the field of technology and information systems.

WORK EXPERIENCE

- No formal work experience yet, but willing to learn and adapt quickly.
- Motivated student with strong communication and teamwork skills.
